INTRODUCTION

Product Designer and AI-native Design Engineer with 4+ years of experience turning complex problems into intuitive digital products across fintech, AI, SaaS, and Web3. Skilled in product strategy, UX/UI design, design systems, and frontend development, with the ability to take products from early concepts through design and implementation. I bring a product-minded approach to every project, combining thoughtful design with fast execution to create experiences that are useful, trustworthy, and built to ship.

SKILLS

- **PRODUCT DESIGN:** Product Strategy, Product Discovery, UX/UI Design, User Research, Information Architecture, User Flows, Prototyping, Design Systems, Usability Testing
- **AI & DEVELOPMENT:** AI-assisted Product Development, AI Prototyping, React, JavaScript, HTML, CSS, Supabase, Vercel
- **DESIGN TOOLS:** Figma, FigJam, Illustrator, Photoshop
- **COLLABORATION:** Stakeholder Communication, Cross-functional Collaboration, Team Leadership, Design Mentorship

PROFESSIONAL EXPERIENCE

Founding Product Designer | Ewave Finance

July 2025 - Present

- Lead end-to-end product design for a stablecoin-powered neobank, partnering directly with the founder from product discovery through beta launch.
- Design onboarding, wallet, transfers, bill payments, and cross-border transaction experiences across the landing page, web app, and mobile app.
- Build and maintain a scalable design system that keeps experiences consistent across multiple product surfaces.
- Design secure custody, identity, and network-selection experiences that simplify complex blockchain and financial concepts for African users.
- Contribute to a beta platform that has processed over \$100K+ in transactions.

UI/UX Design Lead Tutor | TechCrush

October 2024 - Present

- Mentor and teach aspiring product designers across multiple UX/UI bootcamp cohorts, covering product thinking, UX research, wireframing, prototyping, UI design, and design thinking.
- Lead curriculum delivery and supervise tutors to maintain consistency across the learning experience.
- Review and provide feedback on thousands of student capstone projects, helping students improve their product thinking and design execution.
- Mentor over 3,000 aspiring product designers through structured learning and practical project work.

Product Designer TES Digital	February 2024 - October 2025 - Designed digital products for startups across fintech, SaaS, healthcare, logistics, education, and e-commerce, working with founders, developers, and product teams. - Led UX audits and redesigns for client products, identifying usability issues and improving key user flows and digital experiences. - Designed responsive websites, web applications, and mobile experiences from research and strategy through high-fidelity design and handoff.
Contract Product Designer Swift Connect	August 2024 - December 2024 - Led end-to-end product design for a fintech platform across its mobile app, web app, marketing website, and admin dashboard. - Worked directly with founders and developers to translate complex financial workflows into simple, accessible user experiences.
Product Designer Renitrust Fintech	August 2022 - May 2023 - Redesigned core web and mobile experiences following a UX audit, contributing to a 215% increase in user base and 100% growth in active users. - Improved key product flows for a platform that processed over 500K transactions.

EDUCATION

- B.Sc. Computer Science, Caleb University
